

**CONSERVATION – ORIENTED WORKSHOP ON  
DEVELOPMENT OF NOMINATION PROFILE FOR XUAN THUY NATIONAL PARK AS  
EAAFP SITE**

**1. Background**

Vietnam has joined EAAFP since 2014 but a flyway site has not been nominated. Therefore our priority is complete at least one Flyway site information sheet to submit to EAAFP Secretariat but we need more support to do this work.

XuanThuy National Park is acknowledge as a Ramsar site and an IBA (by Birdlife International)in Vietnam. With the outstanding value of the landscape and biodiversity, XuanThuy National Park (XTNP) is also a living space for a wide range of migratory bird to staging and wintering, especially spoon-billed sandpiper, black-faced spoonbill and other endangered species in the IUCN Red List. In other word, XTNP plays an internationally significant role to migratory bird habitat.

Recognizing these conservation value to migratory and water bird species, nominating XTNP as a flyway site in the flyway site network will contribute to enhance the conservation efficiency to migratory waterbirds and their habitats in Viet Nam in particular and in East Asian – Australasian region in general.

Last year, a draft information sheet to nominate XTNP as a flyway site was developed but still need further consultation and discussion before official submission to EAAFP Secretariat. Completed information sheet submitted to EAAFP Sec will be one of activities to celebrate World Migratory Bird Day.

Therefore we would like to request financial support from EAAFP WMBD Small Grants to organize a conservation and consultation - oriented workshop among Biodiversity Conservation Agency (BCA), XTNP and some key experts to complete the information sheet as well as to offer a chance to review the status of water and migratory bird conservation in XTNP at the same time.

**2. Objectives**

Objectives of this workshop are as follows:

- Review and assess the data and information on water and migratory birds in XTNP
- Support to complete the nomination profile of XTNP as Flyway site

**3. Date/time and Location**

**Date:** 01 day in May, 2016

**Place:** XuanThuy National Park (tentatively)

**4. Target participants**

- Participant number: About 20 persons
- Representatives from Biodiversity Conservation Agency: Department of Species Conservation, Department of Ecology, Department of Genetic Resources and Biosafety, Department of Conservation Planning;
- Officials of XuanThuy National Park;
- Related scientists and experts....

**5. Expected outputs**

- Information sheet of XTNP as a Flyway site would be consulted and completed to submit to EAAFP

Secretariat

**6. The Funding Source:**

EAAFP WMBD Small Grants

**7. Estimated cost for the Workshop**

**Total estimated cost: 1000 USD**

The Detailed Agenda and Estimation can be found in the below ANNEXES.
