

## EAAFP World Migratory Bird Day Small Grant Report

### Section 1. EVENT INFORMATION (Compulsory)

#### 1.1 Contact Information - Provide your contact information for this report

Full Name	Chairunas Adha Putra
Name of the organisation	Wild Heritage of Sumatra Foundation
Name(s) of the division and/or position	Program Manager
Type of the organisation - Government/NGO/Private Sector/Other	Non Government Organization
Email	<a href="mailto:chairunasadha@ymail.com">chairunasadha@ymail.com</a>
Postal address	20222
Office phone numbers	
(Your) Cell number (optional)	+62 81319342597
Fax (optional)	
Website (optional)	<a href="http://www.whisindonesia.com/">http://www.whisindonesia.com/</a>
Additional contact person (optional)	
Date of submission	12 June 2022

#### 1.2 Event Location - Where did your event take place?

Name of country	Indonesia
Name of city	Inderapura City, Batubara Regency.
Name of event place/venue	Elementary School UPTD 06 Durian Elementary School UPTD 18 Lalang Elementary School UPTD 16 Gambus Laut

#### 1.3 Event Organiser - Who were organiser and/or sponsor for your event?

the organizer of this event is Wild Heritage of Sumatra Foundation with support from WMBD Small Grant Fund and personal donation.
---

#### 1.4 Target Audience - Who were the participants for your event?

School students, teachers or parents	√
University students	
Researchers, scientist	
birdwatchers	
Site managers for flyway site and wetlands	
Decision or policy makers	
Media	
Others – specify	

Registry: EAAFP/2022/067

**1.5 Number of Participants - How many participants were there for your event?**

We reached up to 180 students and 19 teachers from three school, delivered them information on shorebirds in their areas, and also delivered a conservation message.

Food allowance for committee	131,69 USD
Snacks and Souvenirs	147,28 USD
Colouring pencils and art-drawing paper (150 pieces)	145,09 USD
Banner, T-Shirt and Stikers	89,16 USD
Prize winner/award (for 30 best pictures)	64,48 USD
Accomodation for committee	222,39 USD
Honorary for story teller and MC	73,00 USD
Total	999,15 USD

**Section 4. SHORT SUMMARY REPORT (Compulsory) – This report will be shared on EAAFP website**

Group photo of participants © WHIS

The eastern coast of North Sumatra, Indonesia, is one of the most important wintering and stopover grounds for some of the migratory shorebird populations on the East Asian-Australasian flyway. One site is on the east coast of Batubara regency is an important site for Nordmann's Greenshank, Great Knot, Far Eastern Curlew, Asian Dowitcher, Curlew Sandpiper, Bar-tailed Godwit, and other shorebirds.. However, limited information and knowledge about migratory shorebirds in the area hinder the conservation to tackle the threats to migratory shorebirds, such as hunting. Therefore, the Wild Heritage of Sumatra Foundation (WHIS) which pays attention in-depth study and conservation of migratory shorebirds in the east coast of North Sumatra, especially in Batubara Coastline, conducted education programme to three elementary school students on the east coast of Batubara Regency, i.e UPTD SDN 06 Durian Village and UPTD SDN 18 Lalang Village Medang Deras sub-regency and UPTD SDN 16 Gambus Laut Village, Lima Puluh Pesisir sub-regency, in line with the World Migratory Bird Day.

At least 180 students and 19 teachers from Medang Deras Sub-regency and Lima Puluh Pesisir Sub-regency joined the activities through the event held on 27 – 28 May 2022. The activities included storytelling to “Introduction the migratory shorebirds”, drawing competition for 134 students, photo exhibition and short film screening “Migratory Shorebirds in Batubara coastline”. The event began with an opening speech from WHIS and the head of the elementary school. WHIS conveyed that the purpose of this event was to raise awareness and educate elementary school children and teachers regarding the importance of their location as a stopover for migratory shorebirds in North Sumatra. So, together, we must protect these migratory shorebirds from hunting.

In the future, WHIS will try to carry out similar activities to two other elementary schools, which are also located on the east coast of Batubara Regency. The targeted schools are schools that are included in the landscape plan for the conservation of migratory shorebirds on the east coast of the Batubara regency. These schools are in the villages of Durian, Pematang Nibung, Medang, Lalang, Gambus Laut and Perupuk. The students who took part in this activity were very enthusiastic, they listened and asked questions about migratory shorebirds. This activity was the first time for them, so they were very happy to participate in the whole series of events. They hope that activities like this will be held every year in their schools. It's hoped that with this initial activity, the young generation on the east coast of Batu Bara Regency can recognize migratory shorebirds and become future conservation cadres.

Students look at photos and memorize the names of migratory shorebirds © WHIS

1.7 Outcome - What is the outcome from your event?

At least 180 elementary school students and 19 teachers from three school were aware of migratory shorebird species in their area. Thus, it's hoped that they will care more and protect migratory shorebirds in their area.

Any additional comment? (Optional)

Note:

- Email us the electronic file (JPEG or PDF) of your language version of the WMBD poster published for EAAFP website;
- Post its printed poster to the **EAAFP Secretariat**, if you can and have one;
- Take enough photos from events or activities with this WMBD poster and send us lots of photos in jpg or png format; and videos as well if you have one.
- Logos of WMBD and EAAFP have to be shown on all your printed and digital promotional materials.
