**THE EAST ASIAN – AUSTRALASIAN FLYWAY PARTNERSHIP SECRETARIAT  
2023 WORLD MIGRATORY BIRD DAY SMALL GRANT  
FUNDING AGREEMENT**

**EAAFP World Migratory Bird Day small grant  
Report Template**

**Section 1. EVENT INFORMATION (Compulsory)**

**1.1 Contact Information - Provide your contact information for this report.**

Full Name	Lia Nur Afrija
Name of the organisation	Aceh Bird Club
Name(s) of the division and/or position	Stering Committee
Type of the organisation - Government/NGO/Private Sector/Other	Student Club
Email	[REDACTED]
Postal address	[REDACTED]
Office phone numbers	+ [REDACTED]
(Your) Cell number (optional)	+ [REDACTED]
Fax (optional)	-
Website (optional)	-
Additional contact person (optional)	+ [REDACTED]
Date of submission	Mei, 2023

**1.2 Event Location - Where did your event take place?**

Name of country	Indonesia
Name of city	Banda Aceh
Name of event place/venue	University of Syiah Kuala, Gampong Lampulo, Gampong Peulanggahan

**1.3 Event Organiser - Who were organiser and/or sponsor for your event?**

Event Organiser: Aceh Bird Club, HIMABIO (Biology Education Student Association), Dinas Lingkungan Hidup, Kebersihan dan Keindahan Kota (DLHK3) Banda Aceh.
---

**1.4 Target Audience - Who were the participants for your event?**

School students, teachers or parents	✓
University students	✓
Researchers, scientist	✓
birdwatchers	✓
Site managers for flyway site and wetlands	
Decision or policy makers	✓
Media	✓
Others – specify	

Registry: EAAFP/2023/0010

### 1.5 Number of Participants - How many participants were there for your event?

100 persons

## Section 2. EVENT PROGRAMME (Compulsory)

Provide your event agenda, programme or discussion paper here.

In celebration of World Migratory Bird Day 2023 in May Aceh Bird Club and HIMABIO celebration with some programs that are carried out on 14 to 21 May 2023 with a string of events such as:

### 1. Short Video Competition

The short video competition that was held aims to invite all people to care more about plastic waste and the dangers of microplastics to life through interesting videos. The theme raised was "**Keeping water from plastic waste**", the target of the contest participants was the public.

This competition was held through online media on May 14 – 21, 2023 by registering through the online form that we provide in the publication in the form of a flyer. Flyer is published a masse by the committee and media partners through social media. This competition was attended by 6 participants from school students to university students. The best work will be the winner and will receive a prize in the form of cash and a certificate.

The winner with the best short video, namely:

- 1<sup>st</sup> Winner: Muslim from Syiah Kuala University
- 2<sup>nd</sup> Winner: Gansar from Syiah Kuala University
- 3<sup>rd</sup> Winner: M. Akbar from Syiah Kuala University

### 2. Photography competition

A photography competition with the theme **Save Water for the Future of Migratory Birds and Humans** was held with the aim of inviting everyone to care more and work together in protecting water for the future of migratory birds and humans through beautiful works of art.

This competition was held through online media on May 14 – 21, 2023 by registering through the online form that we provide in the publication in the form of a flyer. Flyer is published en masse by the committee and media partners through social media. This competition was attended by 14 participants from school students to university students. The best work will be the winner and will receive a prize in the form of cash and a certificate.

The winner with the best photography, namely:

- 1<sup>st</sup> Winner: Muhammad Al Fatih from UNS
- 2<sup>nd</sup> Winner: Hudzaifah Fahreni from UNJ
- 3<sup>rd</sup> Winner: Haris Akbar Hidayat from IPB

### 3. Essay writing competition

Essay writing competition with the theme "**Utilization of Technology for Monitoring Waste and Microplastics**" aims to improve students' critical thinking skills

and generate innovative ideas and creativity, the target of the contest participants was the public.

This competition was held through online media on May 14 – 21, 2023 by registering through the online form that we provide in the publication in the form of a flyer. Flyer is published a masse by the committee and media partners through social media. This competition was attended by 10 participants from school students to university students. The best work will be the winner and will receive a prize in the form of cash and a certificate.

The winner with the best essay, namely:

1<sup>st</sup> Winner: Imam Safir Alwan Nurza from UNJ

2<sup>nd</sup> Winner: I Made Egga Adika Saputra from Denpasar

3<sup>rd</sup> Winner: Presty Wulandari from Gorontalo State University

#### **4. Campaign regarding the “dangers of microplastics in water for ecosystems and humans”**

This campaign was organized by the Aceh Bird Club in collaboration with the Biology Student Association, this activity was carried out on Saturday 20 May 2023 at 09.00-12.00 in the Peulanggahan village hall, Banda Aceh. In carrying out the WMBD 2023 campaign, there will be 2 presenters, namely:

**Fitrah Asma Ulhusna, S.Pd., M.Si** is a lecturer at the Biology FKIP, University of Syiah Kuala which discusses "**Types of microplastics, the dangers of microplastics to residents and the role of society in reducing microplastics**"

**Heri Tarmizi** from Kelompok Studi Lingkungan Hidup (KSLH-Aceh) which discusses "**Distribution and distribution of migratory birds, as well as the dangers of microplastics for migratory birds**".

This activity was attended by 50 participants from various walks of life, students, bird watchers, and school students. The program was published on the university's online media, and published in several other online media, so that it can be read by the public who don't know about the dangers of microplastics to humans and migratory birds. There were several series of activities during the campaign, namely: delivering materials, giving souvenirs, and giving prizes to the best participants.

#### **5. Cleanup the river in the Lampulo area, Banda Aceh**

Cleanup the river activity was the last activity in a series of WMBD 2023 activities which were carried out in the village of Lampulo, Banda Aceh on Sunday 21 May 2023 at 08.00-11.00. This activity was attended by 70 participants from various backgrounds such as students, university students, environmentalists, the public and several communities. This activity was also supported by the Banda Aceh City Environmental Service and the Kuta Alam Police Chief. This activity was covered by various media, starting from university media, local media, and national media, so that it can be read by the public and educate the public to protect the environment and dispose of waste in its place. During the river/beach walking activity, all participants also received souvenirs.

### Section 3. BUDGET REPORT (Compulsory)

Report here how you spent the budget you planned in the application.

No	Detail	Unit	@ Price (USD)	Amount (USD)
1	Garbage transport car	1 Unit	\$32	\$ 32
2	Transport for Local Speakers	2 persons	\$35	\$ 70
3	Consumption for campaign and susur sungai	150 packages	\$1.66	\$ 250
4	Short Video Competition Reward	3 persons	-	\$70
5	Fotografi Competition Reward	3 persons	-	\$70
6	Essay writing competition Reward	3 persons	-	\$70
7	Cost manage Media Publication	4 persons	\$13	\$ 52
8	Printing T-Shirt to Committee	28 persons	\$5	\$ 140
9	Material for Event (Fotocopy, Sertificate, souvenirs for participants)	150 packages	\$1.64	\$ 246
<b>Total</b>				<b>\$1000</b>

### Section 4. SHORT SUMMARY REPORT (Compulsory) – This report will be shared on EAAFP website.

Aceh Bird Club celebrates the World Migratory Bird Day 2023 event with a series of events that are carried out offline and online. The Aceh Bird Club also collaborates with the Biology Education Student Association (HIMABIO) FKIP Syiah Kuala University, and collaborates with several communities such as Sobat Bumi, DD Volunteer, Perkasa Alam School, Lets Birding, and the local community with the aim that more and more young people care about and participate in voicing the importance of protecting the environment, migratory birds, and their habitat. The series of events starts from 14-21 May 2023 involving students, university students, environmentalists, communities, lecturers, and several related agencies.

These activities are photography competitions, short video competitions, essay competitions, campaigns and activities along rivers and beaches. We will discuss the details of these activities as follows.

The first activity was a photography competition, short video competition and essay writing competition which were opened publicly with the aim of making the younger generation aware of the impact of microplastics which pollute water on humans and migratory birds. This competition was held on 14-21 May 2023 which was carried out online by registering in an online form provided by the committee and given time to submit their best work and the announcement of the winner on 24 May 2023 via Instagram. The best work will be the winner and will receive a prize in the form of cash and a certificate. A total of 30 contestants registered for the competition. The assessment is taken from the number of likes on Instagram and the jury's score.

The winner with the best photo, namely:

1<sup>st</sup> Winner: Muhammad Al Fatih from UNS *image title is "Milik Bersama."*

2<sup>nd</sup> Winner: Hudzaifah Fahrni from UNJ

*image title is "Pengunjung tetap teluk Jakarta."*

3<sup>rd</sup> Winner: Haris Akbar Hidayat from IPB *image title is "Berbagi Ruang."*

Picture 1: The winner with the best photo

The winner with the best short video, namely:

1<sup>st</sup> Winner: Muslim from Syiah Kuala University

*video title is "Melindungi air untuk burung migrasi"*

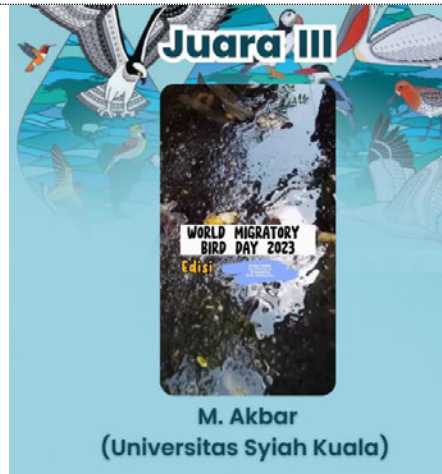

2<sup>nd</sup> Winner: Gansar from Syiah Kuala University

*Video title is "Jaga Air untuk Manusia dan Burung Migrasi"*

3<sup>rd</sup> Winner: M. Akbar from Syiah Kuala University

*Video title is "Pentingnya Menjaga Air untuk Burung Migrasi dan Masa Depan Manusia"*

Picture 2. The winner with the short video

The winner with the best essay, namely:

- 1st Winner: Imam Safir Alwan Nurza from UNJ *“Decase U-Bot (Detect, Catch, And Absorb Plastic Pollution with Capacitive Sensor, Okra, And Underwater Bot) Sebagai Upaya Stategi Pemanfaatan Teknologi Untuk Perlindungan Air Dari Sampah Dan Mikroplastik.”*
- 2nd Winner: I Made Egga Adika Saputra from Denpasar *“Trashe (Trash Monitor Application): Aplikasi Pemantauan Sampah Berbasis Internet of Things (Iot) Untuk Memantau Sampah Dan Mikroplastik.”*
- 3rd Winner: Presty Wulandari from Gorontalo State University *“Teknologi Inovatif Solusi Mengatasi Sampah Mikroplastik.”*

Picture 3. The winner with the best essay

The culmination of a series of activities held by the Aceh Bird Club was on May 20-21, namely campaign activities and Cleanup the river. This campaign was organized by the Aceh Bird Club in collaboration with the Biology Student Association, this activity was carried out on Saturday 20 May 2023 at 09.00-12.00 at the Peulanggahan village

hall, Banda Aceh. In implementing the WMBD 2023 campaign, this seminar is filled by 2 presenters who are experts in their fields. namely:

**Fitrah Asma Ulhusna, S.Pd., M.Si** is a lecturer at the Biology FKIP, University of Syiah Kuala which discusses "**Types of microplastics, the dangers of microplastics to residents and the role of society in reducing microplastics**"

**Heri Tarmizi** from Kelompok Studi Lingkungan Hidup (KSLH-Aceh) which discusses "**Distribution and distribution of migratory birds, as well as the dangers of microplastics for migratory birds**".

This activity was attended by 50 participants from various backgrounds, students, bird watchers, and school students. The program was published in the university's online media, and published in several other online media, so that people who don't know about the dangers of microplastics to humans and migratory birds can read it. Participants were very enthusiastic to hear the explanation from the speaker. There were several series of activities during the campaign, namely: delivering materials, giving souvenirs, and giving prizes to the best participants. all campaign activity participants received certificates, souvenirs in the form of tumblers with an inscription "**Protect Water for The Future of Migratory Birds and Humans**" and received consumption. Apart from offline or in-person campaigns, the Aceh Bird Club also conducts an online campaign for WMBD 2023 activities through social media accounts and uses hashtags that have been determined by the committee.

Cleanup the river walk activity was the last activity in a series of WMBD 2023 activities which were held in Lampulo village, Banda Aceh on Sunday, May 21, 2023. The garbage collection activity started from 09.00-11.00, this activity was attended by 70 participants from various backgrounds such as students, university students, environmentalists, the public and some communities, the total amount of waste collected is 550 kg with an area of about 400 m long. This activity was also supported by the Banda Aceh City Environment Service and the Kuta Alam Police Chief. This activity was covered by various media, starting from university media (Detak press), local media (kataalpha.com, ajnn.net, dialeksis.com, rmlaceh.id, antarafoto.com, antaranews.com), and national media (okezone.com, Kompas tv), so that it can be read by the public and educate the public to protect the environment and dispose of waste in its place. During the activity along the river/beach, all participants also received

certificates, souvenirs, and consumption. All consumption provided by the committee during the event is free from the use of plastic.

#### 1.7 Outcome - What is the outcome from your event?

We believe that participants who participate in our activities can become community, pioneers in protecting migratory birds and their habitats.

1. Educate public to care about the dangers of microplastics to life.
2. Fostering a sense of responsibility and a sense of love for the environment from an early age

Registry: EAAFP/2023/0010

3. Triggering more activities aimed at preserving nature, especially in protecting water from plastic waste pollution.
4. Establish a relationship between the community and stakeholders.

Any additional comment? (Optional)

I hope that in the future the people of Aceh will be wiser in using products made from plastic, care for the environment, and care more about migratory birds and their habitat. I also hope to receive support to carry out further research related to the “**analysis of microplastics in the feeding area of migratory birds**”. And hopefully the Aceh Bird Club can continue in collaboration with EAAFP, and if there are research opportunities in Aceh, Aceh Bird Clubs will be happy to participate.

Note:

- Email us the electronic file (JPEG or PDF) of your language version of the WMBD poster published for EAAFP website;
- Post its printed poster to the **EAAFP Secretariat**, if you can and have one;
- Take enough photos from events or activities with this WMBD poster and send us lots of photos in jpg or png format; and videos as well if you have one.
- Logos of WMBD and EAAFP have to be shown on all your printed and digital promotional materials.
